referenced patent application and are brought to the attention of the Examiner as being possibly material to examination of this application.

The remaining references listed on Form PTO-1449 are also brought to the attention of the Examiner as being possibly material to examination of this application.

European Patent Reference 350 627 B1 shows a mechanical means of inducing folds or bends into fiber material.

Form PTO-1449 (5 pages) is enclosed with a copy of each and every reference cited on Form PTO-1449. Some reference copies are submitted herewith having extraneous markings. No representations concerning the source, accuracy or relevance of these markings are made hereby.

Respectfully submitted,

Roland W. Norris
